

# PN Hook

## Multi-point locking system

### For use on timber windows

Multipoint locking espagnolette for side hung or top hung applications with hook bolts, designed for profiles with eurogroove. The PN Hook Espagnolette is available in various croppable lengths with a

choice of three backsets. The PN Hook Espagnolette is compatible with all standard espag handles with 43mm fixing centres with a 7mm square spindle.

### Features and Benefits

- Fits standard eurogroove
- Works in a minimal air gap
- 25, 28 or 40mm backset versions available
- Croppable
- Keeps are designed for PN Combi and Uni systems but can be adapted to other sections
- Suitable for top or side hung
