

Titon Sobinco 490 Pivot Hinge

Specifier's Text

All windows to be fitted with Titon Sobinco 490 Pivot Hinges.

Pivots shall be suitable for horizontally or vertically hinging reversible windows and incorporate an integral automatic (except for 'V' type) restrictor (as per schedule). Restrictor shall automatically engage the reverse position at 170 degrees.

Restrictor shall be available in a choice of types;

'K' type - two movement wheel operation

'T' type - lever operation

'V' type - key operation

Version to be chosen according to situation.

Product shall have adjustable friction mechanism for easy maintenance.

Pivots shall be constructed from aluminium alloy and withstand sash weights up to 180kg (horizontally pivoted) and 120kg (vertically pivoted).

Products to have been tested in accordance with BS6375 Part 2.

Pivot Hinges available from Titon Hardware Ltd.
