

Maxiglaze

Energy efficient glazed-in ventilator

Maxiglaze Ventilator (inside)

Maxiglaze Ventilator (outside)

For use on PVCu, timber* or aluminium windows

Maxiglaze is an energy efficient glazed-in aluminium ventilator that provides an Equivalent Area (EA) of 12000mm² per metre of extrusion (equal to vent length minus 57mm). Optimum performance over length

requires fewer vents to be fitted to achieve total requirement. The Maxiglaze is available in made to measure sizes or in bar length in a variety of colours.

Features and Benefits

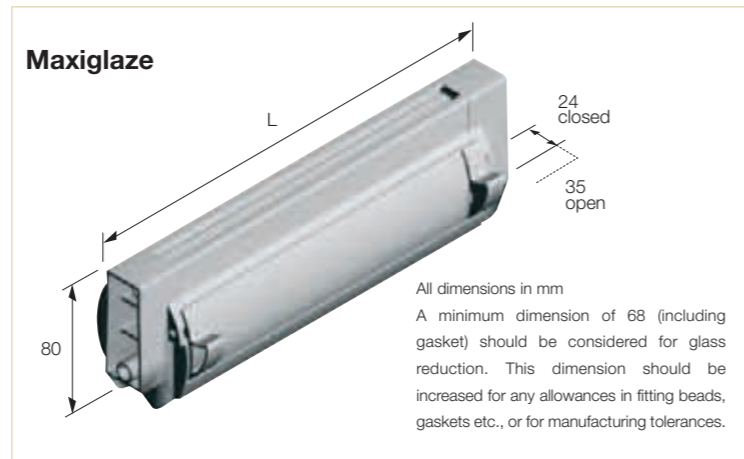

- Optimum air opening over length
- 2500mm² EA / 4600mm² Free Area at 270mm long, 5000mm² EA / 8900mm² Free Area at 470mm long
- Supplied made-to-measure or in bar length
- Designed for easy cutting and assembly from bar length
- Suitable for 20, 24 or 28mm glass thicknesses
- Available in mill finish bar length for customer painting (24mm version only)
- Vent Injection Process (VIP); rapid sealing method to improve weather tightness
- Aluminium or (white) plastic canopy
- Dual colour (inner and outer) finish available
- Thermally improved (not mill finish version). Complies with BS5440 Part 2
- Channel gasket
- Available in Gas Regulations version
- Cord and rod control versions
- Patented design
- When specified correctly complies with Building Regulations

*Suitability on timber windows dependent on bead fitting method and sealing. Please phone for further details.

Cord operation

Rod Operation

Manufactured from

Aluminium 6063 HIT T6, component parts PVCu, POM, PA6 & PP (UV Stable)

Standards

Tested in accordance with BS EN 13141-1:2004 (air flow, air leakage and weather tightness)

Gas Regulations version designed to comply with Building Regulations (England & Wales) Approved Document J and BS 5440 Part 2:2000

Acoustic performance tested in accordance with BS EN ISO20140-10:1992, BS EN ISO140-10:1991 and single figures to BS EN ISO717-1:1991

Performance

(Full test details available on request)
 Equivalent Area (EA) (mm²) – 12000 per metre of extrusion
 Free Area (mm²) – 21476 per metre of extrusion
 Air Leakage (m³/hr @ 50Pa) – 500mm overall length - 0.98
 Water Resistance (Pa) – 600
 Acoustic D_{n,e,w} (+/-) – 500mm overall length - vent open 29 (0;0), vent closed 48 (-1;-3)

Finishes

Suffix product code with:
 -387 (white with PVCu canopy), -020 (white with white aluminium canopy), -475 (white with black aluminium canopy)
 *This product cannot be supplied anodised
