

# Titon Sobinco Silentbloc Ventilator

---

## Specifier's Text

Windows to be fitted with sound attenuating glazed in ventilators, Titon Sobinco Silentbloc, to comply with Building Regulations Approved Document F1 depending on ventilator length. Product to be available in made to measure form.

Ventilator to suit aluminium, PVCu or timber windows and provide infinitely variable opening by means of a 'hit and miss' aluminium slide operated by a knob (with an option of cord operation).

Ventilator body sight size to be 135mm. Product available in any RAL colour.

Product available in two versions (3 or 5) depending on sound absorption performance, both to feature identical interior projection dimension. Silentbloc 3 to offer noise reduction of DnW of 40dB, Silentbloc 5 to offer noise reduction DnW of 43dB and either to feature a tortured air path (at least three angles) through ecologically sound, absorption material.

Product to be glazed in accordance with manufacturer's instructions.

Ventilator available from Titon Hardware Limited.
