

Trimvent® Select S13 Slot Ventilator

Specifier's Text

Windows to be fitted with slot ventilators, Titon Trimvent Select S13 ventilator and C13 canopy or GS13 grilles, to comply with Building Regulations Approved Document F1.

Ventilator and canopy/grille to provide a minimum of 4000mm² or 2000mm² available air opening (AAO) ventilator to incorporate a deflector that provides infinitely variable opening. In addition the deflector to be rotatable to enable deflection of air up or down or both. Where 8000mm² AAO is required this is achieved by fitting multiple ventilators and canopies/grilles.

The ventilator and canopy to be fitted to 13mm wide slots and to incorporate slot locators and be available in screw fix or clip fix versions. Ventilator and canopy to include screw covers. Canopy to incorporate sealant groove. GS13 grille to clip fix into window profile.

Where specified, ventilators to include remote control operation by means of a single cord connected to a suitably positioned operating lever.

A matching Titon Gas Regulations Ventilator to be fitted to comply with BS 5440: Part 2 where required.

For use on PVCu or timber (not GS13 grilles) windows.

Product shall have been assessed and certified by the British Board of Agrément (BBA) and manufactured under BS EN ISO 9001.

Products available from Titon Hardware Limited.
