

Instructions

Operation:

The unit can be used in two ways, as an extractor fan or a trickle ventilator.

For trickle ventilator facility use snib to open slide. This allows air to move naturally between inside and outside of window.

Bathroom Extract Fan: (Remote PSU with Humidistat & Ceiling Switch)

1. Use snib to open slide and pull cord to turn fan on.
2. Fan will run until humidity drops to the humidistat determined level and then automatically stop.
3. Fan will re-start automatically should the humidity exceed determined level.
4. To start fan running regardless of humidity, for example to extract smells, pull cord twice quickly.
5. To turn fan off pull cord once.

Maintenance:

WARNING - ISOLATE VENT-TREX FROM ELECTRICITY SUPPLY BEFORE CLEANING!

The units are designed to be maintenance free under normal use. External faces to be cleaned using a damp cloth and mild domestic detergent. Stains not removable with soapy water may be removable using domestic non-abrasive cleaner. Do not use to excess as they may affect finish.
