

Instructions

Operation:

The unit can be used in two ways, as an extractor fan or a trickle ventilator.

For trickle ventilator facility use snib to open slide. This allows air to move naturally between inside and outside of window.

Kitchen Extract Fan: (Two speed fan with remote PSU)

1. Use snib to open slide and pull cord to turn fan on.
2. Fan will run at high speed for approx 7 minutes, then automatically reduce to low speed and continue to run until switched off.
3. Pull cord twice quickly to switch fan speed from low to high or from high to low (7 minute high speed run still applies).
4. Pull cord once to turn fan off.

Maintenance:

WARNING - ISOLATE VENT-TREX FROM ELECTRICITY SUPPLY BEFORE CLEANING!

The units are designed to be maintenance free under normal use. External faces to be cleaned using a damp cloth and mild domestic detergent. Stains not removable with soapy water may be removable using domestic non-abrasive cleaner. Do not use to excess as they may affect finish.
